

Choosing of schools

For Guardians who are to choose school for their child
Due to a technical error, we have not been able to provide the correct placement lists.

Unfortunately, this means that we need to look over all school placements again. Information regarding your child's placement will be given within a few weeks, at the latest at the end of March.

The re-election period is then two weeks after you received the placement announcement.
In this context, we also have a new map which will be the basis for the placements.

We apologize that this technical error has occurred and the inconvenience this might cause you.

Sincerely,

Giggi Thomson,
Head of individual support and admissions
